Health & Sex Education Opt-Out

INSTRUCTIONS

The California Healthy Youth Act (AB 329) mandates Comprehensive Sexual Education for students in grades 7 through 12, and optionally, for students in grades K-6. A parent or guardian can decide to opt out his or her child from the sexual education course by simply submitting the opt-out in writing to the school district.

California Education Code Section 51240 states "If any part of a school's instruction in health conflicts with the religious training and beliefs of a parent or guardian of a pupil, the pupil, upon written request of the parent or guardian, shall be excused from the part of the instruction that conflicts with the religious training and beliefs" or "personal moral convictions" of the family.

In addition, Section 51938 of the Education Code protects the right of parents "to excuse their child from all or part of comprehensive sex education, HIV prevention education, and assessments related to that education." Parents can excuse their child by submitting "their request in writing to the school district."

Finally, under a federal law known as the Protection of Pupil Rights Amendment (20 U.S. Code § 1232h), schools must allow parents to opt their child out of any surveys that ask questions regarding the following topics:

- 1. Political affiliations or beliefs of the student or the student's parent.
- 2. Mental or psychological problems of the student or the student's family.
- 3. Sex behavior or attitudes.
- 4. Illegal, anti-social, self-incriminating, or demeaning behavior.
- 5. Critical appraisals of other individuals with whom respondents have close family relationships.
- 6. Legally recognized privileged or analogous relationships, such as those of lawyers, physicians, and ministers.
- 7. Religious practices, affiliations, or beliefs of the student or the student's parent.
- 8. Income (other than that required by law to determine eligibility for participation in a program or for receiving financial assistance under such program).

The school district must comply with the California Education Codes 51240 and 51938, AB 329, and with the federal Protection of Pupil Rights Amendment.
